

### SPECIFICATION AMENDMENTS

On page 9, line 13: please amend the paragraph beginning with "FIG. 15B is a diagram illustrating" as follows:

"FIG. 14B ~~15B~~ is a diagram illustrating an embodiment of dynamic re-assignment of PN codes for multiple devices as a function of time according to the invention."

### REMARKS/ARGUMENTS

The above-referenced Notice indicates that the reason for non-acceptance of the originally submitted drawings is as follows:

"More than one figure is presented and each figure is not labeled "Fig." with a consecutive Arabic numeral (1, 2, etc.) or an Arabic numeral and capital letter in the English alphabet (A, B, etc.)(see 37 C.F.R. 1.84(u)(1)). See Figure(s) There are fig 14A, 14B in drawing description of specification, However fig 15B submitted in drawing sheet.." (see enclosed copy of "Notice to File Corrected Application Papers").

The Applicant respectfully submits that a typographical error was accidentally included within the originally filed written description of the specification. The actual FIG. 14B of the drawings was improperly referenced within the "**BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWINGS**" as "FIG. 15B" on page 9, line 13 of the originally filed utility patent application. The Applicant is submitted herewith an amendment to that portion of the written description of the specification. Once this amendment is entered, the Applicant respectfully submits that the non-acceptance of the originally filed drawings will be obviated.

The Applicant is also re-submitting the originally filed drawings herewith for the convenience of the Examiner.
